ADVANCED TECH

LIGHT BAR TYPES

RIGID® lights are driven by Aluminum PCB Smart Boards[™].6063-T5 aircraft aluminum extruded housings

and Tiger Drylac® UV protection polyester powdercoating.

SR-SERIES PRO

Sleek, powerful, low-profile (under 5 cm tall). Lights extreme distances with low energy usage. Available in 25.4 cm & 81.3 cm

EXCLUSIVE OPTICS

RIGID® invests heavily in optical science and has patented multiple optics and optics systems that maximize total light output and efficiency.

ECE CERTIFIED

D-SERIES PRO

Compact to fit almost anywhere with high output and low energy usage. Available in Driving, Flood & Spot

RUGGED CONSTRUCTION

Pro Armor lights are designed to be big and beefy with an aggressive style all their own, and housed in IP67 marine-grade rated UV polyester powdercoating.

LIGHT BAR TYPES

DUAL-ROW LED LIGHT BARS

The most spread and farthest illumination downrange. Easy to mount.

MASSIVELY

BRIGHT

SINGLE-ROW LED LIGHT BARS

PROARMOR.

Pro Armor builds bright lights designed

for any riding experience. All that power is

directed through heat dissipating aluminum for streamlined heat management.

Powerful, compact, low-profile light bars with sleek look.

Available in Cube, 25.4 cm, 50.8 cm \$ 76.2 cm Available in 27.9 cm, 83.8 cm \$ 101.6 cm

ECE

CERTIFIED

CUBE LED LIGHTS

Small size allows mounting in strategic locations for added lighting. Available in Flood & Spot

LIGHT BAR OPTIONS

BLAZEYOUR TRAIL

TRAILBLAZER LED ADJUSTABLE HEADLIGHTS

- Direct replacement for factory headlight
- 6,000 lumen total output; 20-watt CREE® XHP LED Chips
- Durable construction is waterproof, dustproof, and fade Adjustable beam pattern (outer two lights) allows for cust
- patterns, from spot to flood, based on riding style and preference
- Integrated LED daytime running light

AUDIO SYSTEM HEAD UNITS

These solutions get you well on your way to hitting the trails with your favorite tunes. Each feature head-units, allowing you to control audio delivery. Both audio roofs and sound bars are all-in-one solutions that can serve as the base of an expanded system with more speakers.

SPEAKERS

Build your dream audio system. From a simple setup with only door speakers, to complex system with door speakers, audio pods and a subwoofer-BUILD IT YOUR WAY.

AUDIO ROOFS

Add a Premium Audio Roof to your RZR and get an all-in-one solution for your sound. Easy to install and integrate into your build, this roof comes complete with an LED push-button stereo and high-efficiency 16.5 cm coaxial speakers for unbeatable sound.

Each wheel and tire Pro Armor designs for off-road vehicles performs perfectly in the intended environment for its intended use. Developed, tested, and produced in partnership so you can tackle the terrain ahead with Polaris.

8 or 10-PLY RATED

- Pro Armor builds the toughest tires
- · Higher ply ratings mean added protection

INNOVATION

DUAL-DUROMETER LUGS (Crawler XG & Attack 2.0)

- Firm durometer rubber on base of lug for stability
- Soft durometer rubber on top of lug for sticky grip

DUAL COMPOUND TREAD (Dual-Threat)

- Firm durometer rubber on center of tread for long wear life
- Soft durometer rubber on shoulders of tread for superior grip

TIRE: DUAL-THREAT

WHEEL: BUCKLE ACCENT

TRIPLE-BELTED SIDEWALLS

- Sidewalls are the most vulnerable puncture area of any off-road tire
- Pro Armor makes tires with extra protection exactly where it's needed most - the sidewall

Sidewall puncture force vs. competition independently tested at Smithers Rapra (smithers.com). The results speak for themselves.

NO MODIFICATIONS NEEDED FOR INSTALLATION.

Add a custom look that sets you apart from the crowd. This custom cage offers all the safety standards and accessory mounting locations you need, but with a completely new look for your RZR. Add even more customization with a rear plate and a roof.

FULL ROHVA COMPLIANCE

The Barricade Cage System meets ANSI/ROHVA 2016-1 ROPS standards, developed and tested by the Recreational Off-Highway Vehicle Association®. Visit rohva.org for more information.

Recreational Off-Highway Vehicle Association® is a registered trademark of Recreational Off-Highway Vehicle Association.

BARRICADE CAGE SYSTEM EXTENSION

• Includes Cage 2881986-458 and Extension 2882171-458

CAGE

ROHVA-compliant, single-piece, fully-welded roll cage

- 7.6 cm lower profile than stock cage for true custom look
- High-quality powdercoat and E-coat finish
- Works with Polaris Poly Half Windshield

BLACK 2881986-458 XP TURBO S '18, XP 1000/TURBO '15-19

EXTENSION

- High-quality powdercoat and E-coat finish
- Integrated tie-down bar

BLACK

ROOF

- Protect yourself from the elements while adding style and color to your custom cage
- Easy installation with integrated fastening points
- High-quality powdercoated finish
- · Lightweight aluminum

EVERY POLARIS ROOF IS ENGINEERED IN TANDEM WITH YOUR RZR

to guarantee the best fit, finish and style in the industry. A roof is essential for keeping the elements at bay while you ride your favorite trails in comfort.

POLY

POLY SPORT ROOF TOPSELLER

- Rigid injection-molded design to eliminate warping in high-heat conditions
- Integrated mounting locations for lighting
- Rugged, textured polyethylene construction for impact and abrasion resistance

GRAPHIC SPORT ROOF

- Weighs only 5 kg (30% lighter than aluminum)
- Won't bend or break upon impact with debris or other obstacles
- Sunroof lets in sunlight while keeping you shaded from the heat

GLASS

POLY

GLASS

HARD COAT POLYVINYL -HARD COAT-POLY VS Lightweight and flexible, Poly is IMPACT-RESISTANT. providing long-term value and protection. Guarantees a **TIGHT SEAL** to keep out rain and dust. Hard Coat options feature an extra layer on both sides of the poly, which provides 30x MORE SCRATCH RESISTANCE than regular poly windshields.

GLASS

Superior OPTICAL CLARITY for a clear view. Laminated safety glass **PROTECTS FROM SCRATCHES** and provides automotive-level visibility.

HARD COAT POLY

FLIP-DOWN WINDSHIELD -HARD COAT POLY

- Two-position design can be adjusted quickly without the use of tools
- · Easy to install and made of tough polycarbonate with scratch-resistant hard coat

POLARIS APPROVED.

GRIZZLY TESTED.

This cooler is IGBC-approved, meaning it withstands the power expended by a typical grizzly bear if it was trying to get inside. Seriously, there are experts who know what a grizzly is capable of doing, and they certify that the Polaris Northstar Cooler can take it.

FIRE EXTINGUISHER MOUNT

OPTIMIZED WEIGHT DISTRIBUTION

- Vehicle weight is spread over larger area, to reduce down pressure and prevent sinking
- 227 kg maximum cargo load with tracks installed

DURABILITY AND RELIABILITY

- Triple sealed main bearings and oil bath bearing housing offer superior load ratings and resist contamination for longer life expectancy
- Extra wide rubber-coated mid rollers with double-sealed bearings resist ice build-up, and spread the load of vehicle to increase flotation and maintain load rating on tracks

OUTSTANDING TRACTION

- Rubber tracks are engineered to create optimized traction across the greatest track surface area
- The track rubber compound and design resist deflection to maintain a stable contact patch on the ground to deliver great performance and comfort

EASY STEERING, SURE HANDLING

Polaris side-by-side track system steering is optimized by a rigid track frame, specifically designed Polaris hubs, and track design

SPECIFIC NEEDS, SPECIFIC OILS

Polaris invests millions in engine development, and part of that investment is making sure its lubricants-critical to engine performance-are the right formula for your specific engine. The amount of testing data and engineering resources used in developing Polaris lubricants would overwhelm an aftermarket company. Therefore, the aftermarket must spec an oil to an industry-wide standard that must account for a variety of operating parameters.

PS-4 is designed specifically for Polaris 4-cycle engines and has high film strength and wear protection under extreme loads and temperatures. Exclusive anti-wear additives protect engine parts with extra rust and corrosion protection.

POLARIS® PS-4

THE COMPETITION

Polaris PS-4 oils exceed the latest industry protection standard as set by the API, while the competition uses standards from years ago. Our proprietary additives clean and protect critical

When tested against competitive oils, camshaft bearing races and lobes exhibit less wear when protected by Polaris PS-4 oil.

WHY VISCOSITY MATTERS: Polaris engines are designed to operate using oils rated at a specific sity. Viscosity is the measure of an oil's oil's "film strength", which is a critical component in preserving engine life when an oil is subject to high heat or heavy loads.

ENGINEERED TO MAXIMIZE THE LIFE OF YOUR RIDE

All Polaris fluids—from anti-freeze to brake fluid—are developed for your vehicle. Trust the only fluids perfectly engineered for your needs.

Polaris DOT 4 Brake Fluid is a high-quality brake fluid designed for use in Polaris hydraulic brakes. Superior consistent, positive braking. » 250 mL • 502081 ANTI-FREEZE Polaris Extended Life Coolant contains organic acid » 1 L • 502103 » 25 L • 502271

THE KEY TO KEEPING YOUR POLARIS OFF-ROAD VEHICLE PERFORMING

as well as the day you brought it home is proper maintenance. Items like belts, filters, and batteries represent only a few of these critical items engineered specifically by Polaris.

AIR FILTERS

Critical to engine performance and reliability. A clogged air filter can restrict air flow to the engine leading to reduced engine performance. Dirt and debris ingestion can damage the engine leading to reduced engine life or catastrophic failure. Polaris recommends changing the vehicle's air filter at the specified intervals outlined in the owner's manual. which may be shorter if your vehicle is subject to severe conditions

BRAKE PADS

Check your brakes if you are close to the recommended service interval, hear grinding when applying the brakes, your vehicle is taking longer to stop or if you have to apply more pressure to your pedal to engage the brakes. Check the brake discs for signs of cracks, excessive corrosion or warping.

If the brake pads are contaminated with oils or grease (petroleum products), brake pads have to be discarded and replaced.

Discs need to be cleaned with brake cleaner or alcohol based cleaner only.

DRIVE BELTS

Polaris Engineered belts deliver unmatched performance for your off-road vehicle. Developed and tested on all our engines for all environments and conditions. Check your belt for delamination, hour glassing and glazing

OIL FILTERS

Change oil filters with every oil change to provide the best protection for your engine. Superior engine protection keeps your engine operating at peak performance. Be sure to follow the suggested service intervals for oil/oil filter changes.

BATTERIES

Never leave a battery unattended during the storage season. To ensure your battery maintains its level of charge when unused for extended periods of time or during freezing weather, the battery should be connected to a BatteryMINDer®. Be sure to check for corrosion from the terminals to the ends of the cables.

MAINTENANCE TIP

BREAK-IN PERIOD

The break-in period for your new RZR is the first 25 hours of operation, or the time it takes to use the first two tanks of fuel. No single action on your part is as important as a proper break-in period. Careful treatment of a new engine will result in more efficient performance and longer life for the engine. Perform the listed procedures carefully.

operation will damage close-fitted engine parts. Do not operate at full throttle or high speeds for extended periods during the first

SERVICE PARTS

Polaris Engineered service parts deliver unmatched performance and fit for your off-road vehicle.

All service parts are developed and tested for your vehicle. Half shafts, bushings, bearings, decals, side panels, electrical components, and clutching components are the same parts that are manufactured on the factory lines for each specific vehicle. This ensures it doesn't merely fit your vehicle – it outperforms your expectations!

VISIT YOUR POLARIS DEALER TO SHOP FOR SERVICE PARTS.

FOR THE LIFE OF YOUR RIDE

Maintenance is the key to keeping your Polaris off-road vehicle performing at its peak. Items like belts, lubricants, and batteries represent only a few of these critical items engineered specifically by Polaris.

POLARIS ENGINEERED DRIVE BELTS

TESTED, PERFECTED

We test each belt on the intended vehicle – we don't just try to make an existing belt "just work".

- Amery Kuhl, Polaris® CVT System Engineer

OUR INVESTMENT

- · 32,187 km of field testing
- Thousands of dyno hours
- •18+ months of development (3,000+ design hours) per belt
- · 1200+ vehicle validation hours
- Collaboration with powertrain & clutch engineers

YOUR ADVANTAGE

- · No clutch recalibration
- · Less wear & tear due to heat
- Ensure maximum performance of your vehicle
- More time out riding, less time wrenching

OUR INVESTMENTS ENSURE POLARIS BELTS
OUTPERFORM YOUR EXPECTATIONS.
